

FIRE SAFETY POLICY

Soltrim International (Pvt) Ltd is committed to providing a safe environment for its employees, contractors and visitors. Part of this responsibility is in the provision and management of fire safety systems and procedures. All members of the ST facility, their visitors and contractors, have a statutory responsibility in ensuring compliance with the law and complying with the fire safety provisions defined within this policy.

Fire is recognised as a major threat to activities at ST. An outbreak of even a small fire creates risk to both life and property, damage to the environment and may compromise our normal business activities. Therefore ST gives its priority to the fire safety committee to resolve all safety matters within the organization.

ST will ensure, so far as reasonably practicable, that the risk associated with fire will be managed in compliance with the fire safety regulations and any other relevant legislation that may impact upon it.

The aim of this policy is, therefore, to provide a robust fire safety framework which will be implemented to secure the safety and well-being of everyone within the ST facility and to protect ST's assets.
